Ring Recovered.

About two years ago (early in December, 1918) Misses Mary and Katie McLaurin, of John's Station, lost a very valuable diamond ring, valued at \$1500. No trace could be found of it, but it was strongly believed that a colored boy who worked around the house, had stolen it.

Last Saturday night a colored girl, Minnie Ingram, entered the Helms Jewelry store here at Rockingham, and showing Mr. Helms a diamond ring, asked him what it was worth. Mr. Helms at once realized that it was a very valuable stone, but told her it was worth about \$1500. He made a note of her name. As soon as she left the store, he phoned the chief of police, S. E. Covington, about the circumstances. Mr. Covington at once over to the woman's house about 5 miles from town, in Wolf Pit, and secured the ring from her.

On Monday Mr. H. W. McLaurin and the two ladies came to Rockingham and had no hesitancy in identifying the ring as being their property. So glad were they to recover it that they were willing to let the matter drop and prosecute no one.

A Grand Lodge Officer.

Rockingham Masonic Lodge feels highly honored in having one of its members as an elective Grand Lodge officer. At the Grand Lodge in session in Raleigh last week, this signal honor was conferred upon Mr. J. LeGrand Everett, he being elected to the office of Junior Grand Warden by acclamation. Masons who are regular attendants upon the Grand Lodge say that this is the first time in their recollection where the position of Junior Grand Warden was filled without a contest. And naturally our local Masons appreciate the regard in which the other Masons of the State hold Mr. Everett.

The Rockingham Lodge was organized in 1896, with Rev. Jas. G. Blalock as its first Master. Mr. Everett was 'raised' by Mr. Blalock on July 13, 1898, and singularly enough Mr. Blalock was one of the first to congratulate him on his election in Raleigh last week. Mr. Everett was Master of this Lodge 1912 and 1914. In 1914 he was made Deputy Grand Master of the 12th District; in 1915, Grand Pursuant and has successively held each appointive office up to and including Junior Grand Deacon, the highest appointive office, and now at this last Grand Lodge he was elected to Junior Grand Warden, which is in line for the Grand Mastership.

Mr. Everett was a charter member, and help to organize the Rockingham Commandery in 1915, and was head of the Commandery 1915-1917. July 3, 1914, he took the degrees in Oasis Temple, Shrine, and is now Assistant Ceremonial Master in that Temple, and in line several years hence as potentate. Mr. Everett's Masonic brethren are much gratified at his advancement, and they take it as a personal honor to their Rockingham Lodge—this being the first time in the history of this Lodge that a Grand Lodge officer has come from it.

The Grand Lodge also honored Rockingham Lodge by appointing Rev. Bruce Benton as an Associate Grand Chaplain, a position that Mr. Benton will fill with credit to himself and honor to the fraternity.

Colored Wedding.

Quite an event in the colored portion of Rockingham's population was the marriage at A. M. E. Zion church Wednesday night if F. S. Dobbins, head waiter of the Seaboard hotel at Hamlet, and Mollie, the daughter of "Aunt" Mollie Crawford. The affair was carried out to the minutest detail, ushers, solo, groomsmen and bridesmaids. After the wedding, which was witnessed by an overflowing church, among whom were many white friends, the mother of the bride gave a reception. The refreshments were of the kind that "Aunt" Molly knows so well how to make. "Aunt" Molly, as every one knows, is the official caterer for the city, and her many white friends are naturally interested in what happens in her family. After the reception the couple went to Jacksonville on a wedding trip.

Getting Rid of the Cause of Asthma

Thursday Health Talk, 4

By Mary Lou Miller,
D. C. Ph. C.

Asthmatic attacks are often preceded by chills, depression of spirits, vertigo, bronchial irritation and nervousness. During the attack breathing is in gasps and is an agonizing struggle. Speech is impossible. The attack may last several minutes or several hours.

Ordinarily the victim finds no correction that is of any permanent value, but is forced to endure the suffering in the knowledge that the attacks may disable him at any time.

The cause is a degree of displacement of joints of the backbone at the base of the neck, sufficient to cause pressure on spinal nerves affecting the bronchial passages. The sufferer from asthma usually has a hump or curve in the spine at the base of the neck. Chiropractic adjustments restore the joints to alignment and remove the nerve pressure. Hundreds of asthmatic sufferers have found this way the road back to health.
